## HERBACEOUS PÆONIES

From a small planting in 1905 I have now some 8,000 plants in stock, having supplied the St. Louis and Chicago market with cut flowers for the Decoration Day trade the past five seasons. I am satisfied that no crop of cut flowers grown in Southern Illinois, Missouri or Indiana, promises as well as the Pæony. This territory will produce the bloom: five, ten to fifteen days prior to Decoration Day. Cold storage will hold them back so that the entire crop may be easily sold at fair prices.

I offer only a limited list of varieties. Too many varieties are a drawback in the packing and shipping of the buds. Plant the best varieties and eliminate the number of varieties as much as possible.
